

MACROCARPA SUPPLIES LTD

24.1.11

To Whom It May Concern:

I recently employed Dave Merrick of Dave's Web Designs to design our companies Website for Macrocarpa Supplies Ltd. I found the experience of dealing with Dave through the process to be of a very high standard. Dave had very good ideas, was very prompt and nothing I asked him to do was a problem, he visited me three times at our home, this was an unexpected service.

I have already had two direct sales from my website, I would recommend Dave to any one looking for this service.

Regards

Steve Renall
